OFI FUND – RS US EQUITY DYNAMIC MULTIFACTOR (I EUR)

ISIN: LU0185280459 - This share class is offered to institutional investors

A Sub-Fund of OFI FUND umbrella SICAV

The SICAV's Management Company is OFI LUX

The Sub-Fund is managed by OFI Asset Management

Objectives and investment policy

Investment objective and policy

The Sub-Fund's investment objective is to outperform its reference benchmark the S&P 500 Net Total Return by investing in assets in line with sustainability and social responsible investments. To that end, the Sub-Fund will invest in equity securities including common stocks, convertible bonds and warrants on equity securities and convertible bonds listed or dealt in on Other Regulated Markets in the US, excluding securities having a lower quality level regarding their involvement in sustainable development. The Investment Manager will be bound by these investment criteria.

As part of the asset selection process, the Investment Manager shall exclude from the Eligible Investment Universe of the Sub-Fund the 20% of assets which have been initially selected by the Investment Manager but which do not have the best sustainable and social responsible investment ratings compared to the other assets which have been selected, and shall monitor this 20% ratio on a daily basis.

The Sub-Fund will use the benchmark index S&P500 Net Total Return as a reference benchmark. The reference benchmark will be used as a universe from which to select securities, as well as an indicator to measure past performance of the Sub-Fund.

It is expected that equity securities within the Sub-Fund will generally be components of the reference benchmark as well. However, to determine the portfolio composition the Investment Manager has full discretion in relation to the individual or sectorial weightings of the equity securities that are components of the reference benchmark..

The Investment Manager will also use its full discretion to invest in companies or sectors not included in the Benchmark in order to take advantage of specific investment opportunities

The investment strategy will restrict the extent to which the portfolio holdings may deviate from the reference index. This is likely to limit the extent to which the Sub-Fund can outperform the S&P500 Net Total Return (ticker Bloomberg SPTR500N).

Management discretion

The Sub-Fund will be actively managed and the Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the investment objective and policy.
