OFI FUND – EURO BREAKEVEN INFLATION (RF-EUR-C)

ISIN : LU1800172915 - This share class is offered to investors subscribing via distributors or intermediaries

A Sub-Fund of OFI FUND umbrella SICAV

The SICAV's Management Company is OFI LUX

The Sub-Fund is managed by OFI ASSET MANAGEMENT

Objectives and investment policy

Investment objective and policy

The Sub-Fund will seek to achieve capital appreciation by investing in fixed income securities, e.g. bonds and inflation indexed bonds, issued by governments, of Eurozone countries, listed or dealt in on Regulated Markets or Other Regulated Markets and denominated in Euro.

The Sub-Fund's policy is to take advantage of future rising inflation rates without providing exposure to real interest rates by implementing a breakeven inflation strategy. The break-even rate is applied to bonds and refers to the difference between the yield on a nominal fixed-rate bond and the real yield on an inflation-linked bond (such as a Treasury inflation-protected security, or TIPS) of similar maturity and issuer.

At least 80% of the Sub-Fund's net assets shall be regularly invested in Euro denominated inflation-indexed fixed income securities, in principle of maturities between 5 and 20 years, issued by governments of the Eurozone. The Investment Manager may however invest at its sole discretion in instruments of shorter or longer maturities. The average rating of these fixed income securities will remain investment grade and will be in the range of the ratings of France, Germany and Italy.

The Sub-Fund may also hold cash or cash equivalents up to 20% of its net assets.

The Sub Fund will be managed with sensitivity to the real interest rate that will normally vary between -0,5 and 0,5. The sensitivity to the real interest rates is measured by a change in the NAV per Share of the Sub Fund for a change of 1% of the real interest rates.

The Sub Fund will be managed with sensitivity to the inflation breakeven that will vary between 7 and 11.

Uses of investment techniques and instruments is allowed for the purpose of gaining exposure to the market pursuant the Sub-Fund's strategy but also during the initial funding and times of large cash inflows, or for the purpose of reducing exposure to the market.

The Sub-Fund will in particular use derivative instruments such as futures, options and swap agreements (which may be listed or over-the-counter) and may also enter into currency forward contracts.

The calculation method for the leverage is the sum of the (risk adjusted) notional of the derivatives. The expected level of leverage of the Sub-Fund typically does not exceed 200% of the net asset value of the Sub-Fund. However, under certain circumstances the level of leverage might exceed the aforementioned level.

According to the applicable law and relevant CSSF circulars, the Sub-Fund uses Absolute VaR, with the limit of 20% of the Sub-Fund's assets under management, with a confidence level of at least 99%, using a 20 days (one month) holding period, to measure global risk (global exposure) linked to derivative instruments.

Management Discretion

The Sub-Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Investment objective and policy.

Purchase, redemption and conversion

You can buy, sell and convert this Share Class from the Registrar and Transfer Agent or the Principal Distributor on a daily basis (on any Dealing Day, i.e. on which banks in Luxembourg are open for banking business).

Distribution policy

Income arising from the Sub-Fund is reinvested.

Recommendation

The Sub-Fund is suitable for investors considering an investment in assets of both a conservative and risky nature. Although potential losses of the Sub-Fund are expected to be moderate, the investor should however be able to accept temporary losses.

Risk and reward profile

This indicator is based on an estimate of the historic volatility calculated from weekly performances of the benchmark over a period of five years.

This indicator is based on an estimate of the historic volatility calculated from weekly performances of the benchmark over a period of five years.

This Share Class is classified in category 3 because at least 80% of the Sub-Fund's net assets shall be regularly invested in Euro denominated inflation-indexed fixed income securities, in principle of maturities between 5 and 20 years, issued by governments of the Eurozone having sensitivity to the real interest rate varying between -0.5 and 0.5.

Further risks that are essential for the Sub-Fund are not adequately covered by the indicator above: (i) the Sub-Fund is exposed to risks linked to the use of derivative instruments in particular futures, options, swap agreements and currency forward contracts.

Furthermore, (ii) the value of your investment may fall as well as rise and you may get back less than you originally invested.

The historical data used for calculating the risk and profit category cannot serve as a reliable indicator of the future risk profile.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

The lowest risk category does not mean a free-risk investment.

There is no capital guarantee and no capital protection.

You can find further information concerning the risk and reward profile on the SICAV's prospectus available at OFI LUX or on the Internet site of the Principal Distributor at www.ofilux.lu.

The Management Company, OFI Lux, may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the SICAV's prospectus.

As a wholly owned subsidiary of OFI Asset Management, the Management Company applies the remuneration policy of OFI Group. The policy establishes an appropriate balance between the fixed and the variable components of the global remuneration and is based on a number of qualitative and quantitative criteria, applied differently for risk takers, senior management and control functions. The assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the UCITS funds managed by the Management Company in order to ensure that the assessment process is based on longer-term performance of the Company and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period. The Group's remuneration policy has been established by the Group's strategic committee which is composed by representatives of the Group's shareholders. It is in charge of the definition and the implementation of the remuneration policy. The details of the up-to-date Remuneration Policy, including but not limited to, a description of how remuneration and benefits are calculated, is available at <http://www.ofilux.lu> and a paper copy is made available free of charge upon request from the registered office of the Management Company.
