OFI FUND – GLOBAL EQUITY NATURAL RESOURCES (I-XL-C-EUR)

(ISIN - LU0875273285) – This share class is offered to institutional investors.

A Sub-Fund of OFI FUND umbrella SICAV

The SICAV's Management Company is OFI LUX

The Sub-Fund is managed by OFI Asset Management

Objectives and investment policy

Investment objective and policy

The Sub-Fund will seek to achieve capital appreciation by investing in equity securities, including common stocks, ADRs, GDRs and warrants on equity securities listed or dealt in on Regulated Markets or Other Regulated Markets in the world. The Sub-Fund can invest in all kind of market capitalization securities of issuers, whose main activity is linked to natural resources sectors, including but not limited to the energy, precious metals, industrial metals, water and timber sectors.

At least 80% of the Sub-Fund's net assets shall be permanently invested as indicated above, in equity securities listed or dealt in on Regulated Markets or Other Regulated Markets in the OECD or in Newly Industrialised Countries (including South Africa, Mexico and Hong-Kong).

The Sub-Fund may also hold up to 20% of its net assets in standard bonds of all kind of rating issued by corporate or government entities listed on or dealt in Regulated Markets or Other Regulated Markets in the OECD or in Newly Industrialised Countries.

The Sub-Fund may also hold cash or cash equivalents up to 20% of its assets.

The Sub-Fund will invest in financial derivative instruments such as listed single name options and futures, index futures, FX and currency swaps, forwards and futures

Purchase, redemption and conversion

You can buy, sell and convert this Share Class from the Registrar and Transfer Agent or the Principal Distributor on a daily basis (on any Dealing Day, i.e. on which banks in Luxembourg are open for banking business).

Management Discretion

The Investment Managers have the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Investment objective and policy.

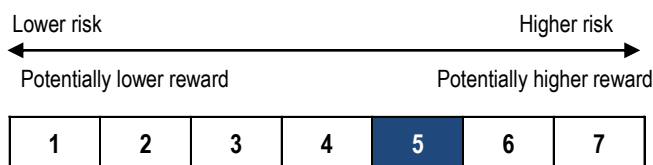

Distribution policy

Income arising from the Sub-Fund is reinvested.

Recommendation

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

This indicator is based on an estimate of the historic volatility calculated from weekly performances of a composite index over a period of five years. This composite index has been created in order to reflect the Sub-Fund's risk profil.

This Share Class is classified in category 5 because the Sub-Fund shall be invested at least 80% in equity securities whose main activity is linked to natural resources sectors, including but not limited to the energy, precious metals, industrial metals, water and timber sectors.

Further risks that are essential for the Sub-Fund are not adequately covered by the indicator above: since the Sub-Fund is exposed to the use of derivatives instruments

such as listed single name options and futures, index futures, FX and currency swaps, forwards and futures.

Moreover, the Sub-Fund may hold up to 20% of its net assets in standard bonds issued by corporate entities; it is therefore exposed to credit risk linked to securities held by the Sub-Fund in case of an issuer's downgrading or default.

Furthermore, the value of your investment may fall as well as rise and you may get back less than you originally invested.

The historical data used for calculating the risk and profit category cannot serve as a reliable indicator of the future risk profile.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

The lowest risk category does not mean a free-risk investment.

There is no capital guarantee and no capital protection.

You can find further information concerning the risk and reward profile on the Sicav's prospectus available at OFI LUX or on the Internet site of the Principal Distributor at www.ofilux.lu.
