5 - Performance fees

The Management Company may receive a performance fee out of the assets of the relevant Sub-Fund.

The Management Company will charge an outperformance fee when there is a positive return compared to the benchmark; then the fee is calculated as follows: for each valuation period during which the calculated return is greater than that of the benchmark, an outperformance fee is deducted as set out in the chart above.

The outperformance in the reference currency represents the difference between:

- the Net Asset Value per Share (the "NAVPS") on a particular day, including fixed fees (management fees, administration fees, subscription fees), but not including any provisions for cumulated previous outperformance fees;

and

- the theoretical composite indexed NAVPS on that same day including the composite index's performance and the effects of subscriptions and redemptions.

The outperformance fee is provisioned for on each NAVPS calculation date. Accounting for outperformance fee provisions includes both allocations and reversals, as a reversal could occur if the return difference calculated on a particular day is negative. Provisions are limited at zero (no negative provisions). When performance since the start of the Valuation Period is negative, provisions for outperformance fees are limited to a maximum of 1.00% of the Net Asset Value, except for OFI FUND-Euro Breakeven Inflation for which the maximum is 0.50%.

When calculating this return, by "valuation period" the Sub-Fund's fiscal year is taken into consideration. The calculation is reset to zero at the beginning of each fiscal year.

The outperformance fees rates by class of Share for each Sub-Fund, are set out in the following schedule:

13 - Swing Price

Sub-Funds may suffer a reduction of their Net Asset Value ("NAV") as a result of direct and indirect transaction costs incurred due to the purchase and selling of underlying securities caused by the investors' subscriptions and redemptions requests. This is known as dilution. To reduce the impact of such dilution and protect the interests of existing shareholders, the Company has implemented a swing pricing mechanism where a Sub-Fund's NAV price is adjusted downwards or upwards in order to ensure that the cost of the underlying portfolio activity is borne only by those investors who ask the respective subscriptions / redemptions and not by the rest of the existing shareholders.

If one day of a NAV calculation the net amount of subscription / redemptions orders on all share classes exceeds a preset threshold, which is determined by the Management Company upon objective criteria and expressed as a percentage of a Sub-Fund's NAV, the NAV may be adjusted upwards or downwards respectively in order to take into account the costs of the adjustment attributable respectively to the orders for subscriptions / redemptions.

The NAV of each class of shares is calculated separately however any adjustment will have, in percent, the same impact on the total NAV of the Sub-Fund. The Management Company determines, on a regular basis the costs and thresholds on the base of, amongst others, transactions costs, buy-sell spreads as well as any taxes applicable to the Company.

Notes to the financial statements (continued)

To the extent that this adjustment is related to the net balance of subscriptions / redemptions in the Sub-Fund, it is not possible to accurately predict whether such swing pricing will apply at some point in the future. Therefore, it is not possible to accurately predict how frequently the Management Company will make such adjustments. Investors should note that the volatility of the NAV may not only reflect that of the securities in the portfolio due to the implementation of swing pricing as explained before.

The Management Company may decide on exceptional cases (e.g. mergers, liquidations, launch of new Sub-Funds) to suspend the application of the swing price mechanism.

The swing prices was applied for the Sub-Fund OFI FUND - Global Convertible Bond on January 15, 2019 for an amount of EUR 299 218.64
