OFI FUND – RS ACTIONS EUROPEENNES (I-XL-D-EUR)

ISIN: LU1209227930 - This share class is offered to institutional investors

A Sub-Fund of OFI FUND umbrella SICAV. The SICAV's Management Company is OFI LUX. The Sub-Fund is managed by OFI Asset Management

Objectives and investment policy

This Sub-Fund is a Feeder Fund and will as such at all times invest at least 85 % of its assets in shares of the Master Fund (OFI FUND – RS ACT4 POSITIVE ECONOMY). The Sub-Fund may hold up to 15% of its assets in ancillary liquid assets, including cash, cash equivalents and short term bank deposits

Investment objective and policy of the Master fund

The objective of this Sub-Fund is to outperform its reference benchmark the Stoxx Europe 600 Net Return by investing in quoted equity securities of companies, domiciled and listed in Regulated Markets or Other Regulated Markets within the European Economic Area and the United Kingdom.

In order to achieve its investment objective, this Sub-Fund will base its investments on fundamental research in the selection of individual securities for long positions.

To that end the Sub-Fund will select companies with good performance outlook and which contribute to the "Positive Economy" define by four thematic, energy transition, natural resources preservation, health/safety/wellness and social inclusion. As part of the equity securities selection process, the Investment Manager shall only invest in equity securities of companies which generate at least 20% of their turnover from one of the four thematic listed above, in order to generate a positive social and environmental impact.

The consideration of material ESG issues is incorporated into the investment analysis and decision-making processes in order to better assess investment opportunities and manage risk with a view toward generating sustainable, long-term returns. Examples of ESG factors include: carbon emissions, water scarcity, waste management, biodiversity.

As part of the equity securities selection process, the Investment Manager shall also exclude from the eligible investment universe of the Sub-Fund the 20% of equity securities which do not have the best sustainable and social responsible investments ratings compared to the other equity securities which have been selected, and shall monitor this 20% ratio on a daily basis.

Investors should be aware of, and prepared to accept, that for Sub-Funds that have a sustainable management process, this process is based on using a proprietary model to determine ESG scoring. There is a risk that this model is

not efficient. The performance of those Sub-Funds may therefore be below the management objective.

Management Discretion

The Master Fund will be actively managed and the Investment Manager has the discretion to buy and sell investments on behalf of the Master Fund within the limits of the investment objective and policy.

The Sub-Fund will use the Benchmark index Stoxx Europe 600 Net Return as a reference benchmark. The reference benchmark will be used as an indicator to measure past performance of the Sub-Fund and in the calculation of outperformance fees.

It is expected that equity securities within the Sub-Fund may be components of the reference benchmark, however to determine the portfolio composition the Investment Manager has full discretion in relation to the individual or sectorial weightings of the equity securities that are components of the reference benchmark. The Investment Manager will also use its full discretion to invest in companies or sectors not included in the Benchmark in order to take advantage of specific investment opportunities.

The investment strategy implies that the portfolio holdings may deviate from the reference benchmark. This deviation may be significant and is likely to be a key element explaining the extent to which the Master Fund can outperform the Stoxx Europe 600 Net Return (ticker Bloomberg SXXR Index).
